1. Introduction.

- Time x Space is a BEP-20 token on the Binance smart chain.
- The max supply is 1 Quadrillion Tokens.
(1,000,000,000,000,000)
- We are designed with helping the advancement of sciences in mind.
- We have a charity wallet from which we will donate to many different areas.
- It is a token that gives you reflections from every transaction.
- At the launch there was a big percentage of tokens that have been burnt.
- Audited twice and KYC held.
- Honest and integral development team.

2. Tokenomics.

We value the safety of our investors funds above everything else. That's why we took the steps to ensure Time x Space is 100% safe and technically unruggable. Initial liquidity is locked for 120 days using Pinksale lock, after that period of time we are going to extend the locking period. For the auto-added liquidity by our smart contract, we burn the LP Tokens regularly, so that it's technically impossible to remove liquidity at any time.

2% of every transaction is sent towards the science & medical domains, to enhance and fulfill their work for a healthy and high-tech world.

2% of every transaction contributes towards back to holders.

2% of every transaction is used for developing the ecosystem of Time x Space.

2% of each transaction goes directly to the liquidity pool. To allow trading & to help build a higher, steadier price floor for all holders.

2% of every transaction is used for marketing and outreach to grow and prosper for the long term benefit of our holders and community.

3. Token Distribution.

4. Utility.

Everybody knows about Time and Space. Now we will take this knowledge to a whole new level: Crypto Level.

Well, we couldn't just go to the moon without helping the world. That is why, Time x Space will gather and donate towards the Sciences, to enhance and fulfill their work, for a healthy and high-tech world.

- **Health Science**

During these tough days, this area is one of the most important. Giving the fact, the need of resources is critical, we thought of prioritizing the donation threads towards it.

- **Formal Science**

We are talking about Logic, Mathematics, Statistics, Theoretical Computer Science and so on. They definitely need our help to solve our hardest problems.

4. Utility cont.

- **Physical Science**

We know the Time is relative and Space so vast, but we need to make sure our people research and gather every single bit of information.

- **Life Science**

This may be our purpose in life: to live longer and find everything we need to survive. These branches: Biochemistry, Microbiology, Botany, Zoology and Ecology, need a little help from us.
